

Instructions for contributions at the ZIEL Postdoc Retreat 2024

05. November 2024 | 15:00 – 18:00 | MFC I conference room

Five-minute project pitch (presentation)

1. **Introduction and research focus:** Introduce yourself and provide an overview of your research area, your current projects and goals.
2. **Collaboration opportunities:** Highlight your key challenges and suggest how collaboration with others could help you. How could you (by your expertise, methods & techniques) support other research projects within the consortium?

Method poster (printed , A0, portrait format)

1. **Title:** Name, research group.
2. **Research area:** Provide a brief description of your research focus and key projects.
3. **Methods, technologies and applications:** Outline the key methods, technologies and provide examples of (innovative) applications in your research context.
4. **Collaboration opportunities:** Highlight how your methods or technologies could benefit other research groups within the consortium, and suggest specific areas where your expertise could contribute to shared projects or foster new developments.
